### Kratek opis

Electr. pressure switch, Digital display, M12x1, 4-pole, Measuring material temp. -20°C to 85°C, G 1/4, Measurement range 0-1 bar

Electronic pressure switch with digital display, made of stainless steel, for monitoring and measuring pressures in liquids, gases or compressed air.

Applications: Machine tools, compressors and pumps, hydraulic and pneumatic systems, machinery in general, factory automation.

Customisable switching functions: Switching / switch-back point or window function, switching delay times, NO and NC functions, min. / max. memory. Password protection for maximum security.

The display and case can be turned 300° for mounting in any position.

Three large keys for intuitive operation with an easy-to-read display conforming to VDMA Standard 24574-1.

Optional on request: Pressure switch with additional analog signal 4 - 20 mA, DC 0 - 10 V and 5-pin plug.

### Tehnične Specifikacije

|                              |   |
|------------------------------|---|
| Min. sobna temperatura [°C]  | -20                                       |
| Min. temperatura medija [°C] | -20                                       |
| Deli v kontaktu z medijem    | CrNi steel                                |
| Električni priključek        | circular plug-in connector M12 x 1, 4-pin |
| IP zaščita                   | IP 65 and IP 67 (M12x1)                   |
| Napajanje                    | DC 15 - 35 V                              |
| Ohišje                       | CrNi steel                                |
| Povezava                     | G 1/4                                     |
| Procesni priključek          | G 1/4                                     |
| Merilno območje max. bar     | 1   |
| Natančnost                   | 1% of span                                |
| izhodni signal               | 2 switching outputs                       |
| Max. sobna temperatura [°C]  | 80  |
| Max. temperatura medija [°C] | 85  |
